Profile Summary

Software Engineer with 1.5+ years of experience in Full Stack Development using Vue.js, Golang, Python, and PostgreSQL. Experienced in building SaaS platforms and scalable web applications. Founder and Lead Developer of Celtrix. Currently pursuing Artificial Intelligence with Python at Dandes Academy.

Education

B.E. in Computer Science and Engineering (Honour's)
Sambhram Institute of Technology, Bengaluru
CGPA: 8.39 | 2021 – 2025

Experiences

Software Engineer Intern | EZEU (OPC) Private Limited
Feb 2025 – Sep 2025

- Developed a multi-tenant Temple Management SaaS using Vue.js, Golang, and PostgreSQL.
- Built secure REST APIs with JWT authentication and RBAC.
- Implemented tenant-level data isolation and responsive UI components.
- Resolved production issues and optimized application performance.

Freelance Full Stack Developer
Sep 2025 – Present

- Delivered 4 client projects from development to deployment.
- Built web applications using Vue.js, React.js, Golang, Python, and PostgreSQL.
- Integrated APIs, authentication systems, databases, and cloud deployment solutions.
- Worked directly with clients to gather requirements and deliver custom software solutions.

Projects

Celtrix – Influencer Marketing Platform | Founder & Lead Developer

- Built and launched an influencer marketing platform connecting brands with influencers and reviewers across India.
- Developed the platform using Vue.js, Golang, PostgreSQL, Redis, AWS S3, Docker, and Nginx.
- Scaled the platform to support 4,000+ active users and 300+ influencers.

Temple Management SaaS

- Developed a multi-tenant SaaS platform for temple administration and operations.
- Implemented devotee management, donations, seva bookings, events, and reporting modules.
- Built using Vue.js, Golang, PostgreSQL, and Docker.
